Why should I spa?

The International SPA Association, ISPA, defines the Spa experience as “your time to relax, reflect, revitalize, and rejoice.” We also aim to deliver you an experience that incorporates elements that have been used in Thai health and beauty rituals for thousands of years.

I've never been to a Spa before. Can someone help me choose the most appropriate treatments?

Any member of our Spa team is available to discuss our range of treatments with you. We will help you meet whatever objective you have, whether to detoxify, energize, improve skin clarity, improve skin tone or just to relax. We also have a range of Ayurvedic therapies for those guests whom wish to try treatments with a local influence.

Can I have more than one Spa treatment in a day?

Yes. Many Spa treatments work in synergy with each other. This means the therapeutic effects can be extended and improved by having more than one treatment on the same day.

What if I have a health condition or any health concerns?

We ask that you notify a member of our Spa team prior to your treatment. Please note it is extremely important to advise if you are pregnant or suffer from high blood pressure.

Should I eat before my Spa treatment?

As many Spa treatments improve blood circulation and use pressure techniques we advise against eating a heavy meal before your treatment. A light snack is appropriate if you are hungry.

We strongly advise against the intake of alcohol before any Spa treatment.

What skin care products will you use in my treatment?

Rest assured that all of our products are gentle on your skin. Where possible we use plant based, organic, biodynamic products that are hypoallergenic. We have different ranges to meet specific needs
